

What should I already know?

There are times when it is hot outside and there are times when it is cold outside.

The **months** of the **year**.

What happens in **autumn** and **winter** (key events, what people do, what people wear)

What the **weather** is like in **autumn** and **winter**.

In **autumn** and **winter**, the days become shorter, and the nights become longer.

Vocabulary

Autumn	Autumn is the season between summer and winter when the weather becomes colder and the leaves fall off the trees
blossom	the flowers that appear on a tree before the fruit
day length	the amount of time where there is daylight .
daylight	Daylight is the natural light that there is during the day, before it gets dark
deciduous	a tree that loses its leaves in the autumn every year
holiday	a period of time during which you relax
hot	Something that is hot has a high temperature
months	one of the twelve times of time that a year is divided into
nature	the animals, plants, and other things in the world that are not made by people
rain	Rain is water that falls from the clouds in small drops
season	the main times of year which can be divided and which have their own typical weather
slightly	a little bit
Spring	the season between winter and summer when the weather becomes warmer and plants start to grow again
Summer	the season between spring and autumn when the weather is usually warm or hot
sunny	when the sun is shining brightly
temperature	a measure of how hot or cold something is
warm	when there is some heat but not enough to be hot
weather	what the sky and air outside are like, such as cold or sunny .
windy	when the wind is blowing
Winter	the season between autumn and spring when the weather is usually cold

Investigate!

Go on an **spring nature** walk - what signs of **spring** can you spot?

Measure the **temperature** every day - what do you notice about the difference in **temperature** from the start of the unit to the end?

Match events to the **seasons** they happen in? What is **weather** like during these events (e.g. Easter, summer holidays)

Discuss what happens when the children go home from school in the **spring** and **summer** - what do they notice about daylight? Compare this to what happens in the **winter**.

Analyse simple graphs that show how **day length** changes throughout the seasons.

What will I know by the end of the unit?

What is a **season**?

There are four **seasons**:

Autumn - September, October, November

Winter - December, January, February

Spring - March, April, May

Summer - June, July, August

autumn

winter

spring

summer

What happens in the **Spring**?

spring

As the **seasons** change from **winter** to **spring**, it gets **warmer** and the **temperature** begins to rise.

Some things that happen in **spring** are:

- *leaves begin to appear on **deciduous** trees.
- *some trees begin to **blossom**.
- *many plants begin to grow.
- *lambs are born and chicks begin to hatch.
- *the days become longer and the nights become shorter.

In the **spring**, there are events such as Easter and St. George's Day.

The **weather** may be **slightly sunny** but still a little **windy** and **rainy** on some days.

sunny

windy

rainy

The clothes you might wear include long-sleeved tops and long trousers. As it gets closer to **summer**, you may wear t-shirts and shorts on **sunnier** and **warmer** days.

shirt

shorts

t shirt

trousers

What happens in the **Summer**?

As the **seasons** change from **spring** to **summer** it gets **warmer** still - this is because the **temperature** has risen.

The days get longer and the nights get shorter. **Summer** has the longest days and the shortest nights of all the **seasons**.

In the **summer**, there are events such as the long school **summer holidays** and

Things people might do are have picnics, go to the beach, have a paddling pool in the garden and mow the lawn.

picnic

beach

mow

lawn

The **weather** may be **hot** and **sunny**. There may not be many clouds in the sky.

The clothes you might wear include t-shirts, shorts and swimming costumes.

t shirt

shorts

swimming costume

It is important to stay safe in the **summer** as the sun can be very strong. You can wear sun hats, sunglasses and sun cream to help keep you safe.
